### **7:00 PM STAFF MEETING**

The meeting was called to order at 7:01 PM by Steve Borst, chair. A quorum was present.

#### **Safety subcommittee report**

Bill Tobey reported on discussions he has had with Captain Conn. He said Chief Burchette has included two road margin clearing projects in EC, one in Pinecrest and another in Killyon's, in a grant request as part a County-wide fuels reduction grant. If successful, funds will be available July 2020 and would be good for three years. t

Bill discussed in-kind contributions for fuels reduction (hours and \$). He will submit hours/expenditures to UFA. For bookkeeping purposes it would be easier if all submissions go through Bill and sent to [firewise84108@gmail.com](mailto:firewise84108@gmail.com)

#### **Development report**

The trails working group's report of findings has been posted on ECCC's website and a link sent out via our email list. We are soliciting community feedback, which can be submitted via a Google form. The deadline for responses is Sept 30th.

Steve is on the steering committee for general plan. Discussing putting conduit in for internet in the context of the new general plan. Steve meeting with UDOT, Americom, SL City, and potentially Century Link.

The main canyon road is scheduled for an overlay next year. Lisa mentioned the need for communicating with stakeholders and recreational road users as the road will likely be closed to bicycle traffic for an extended period of time and said she has discussed her concerns with the mayor.

#### **Communications**

Relative to our requests for capital improvement projects, some of the work is already in progress - the striping has been completed and County has put up a "No Campfire" sign in Pinecrest. Road work on

Margerethe Ln (a capital improvement request from prior year) has begun. County has cleared a portion of overhanging trees on Killyon's.
